

YANA Support for Denman and Hornby Island Families

The Denman Hornby Connector for Expecting Mothers

YANA funding helps families cover the accommodation expenses incurred due to the necessity of temporary relocation to the Comox Valley, in order to be closer to maternity care and the Hospital in the weeks surrounding their baby's birth.

Regular YANA Program

Travel funding and accommodations are provided to residents of Denman and Hornby Island when out-of-region healthcare is needed for children or expecting mothers or when a child requires overnight medical care at the Comox Valley hospital.
